

CLOSING OUT PAYROLL MADE EASY

DISCREPANCIES

Our discrepancy tool allows you to decide how to pay either by punch, shift, or a combination of both depending on your policies.

TIME CARDS

Allowing employees and managers to approve and review time cards help offer another layer of accuracy.

EXPORT FILE

We help you save time with an exportable file that can be imported directly into your payroll software. This prevents the need for manually created reports or hand keying hours.
